Visionary:

Brahmasri Vanchinatha Dikshithar

(Father of Shri V.K. Sundaram, Founder Chairman, SET)

Message from the Management

Dear Friends,

We extend a warm welcome to each of you. A good education plays a major role in shaping each human's success and we believe that with each student, we are not shaping just one individual but raising a society and world with new ideals and progressive thought.

We pride ourselves on being an institution of distinction and provide students with the Best possible enabling-environment to help them achieve their individual goals.

Offering students a wide range of academic courses we provide them a solid academic foundation, guidance and support helping them realize their dreams.

The thrust on academics is strong, yet we also believe in developing the complete human potential through arts, sports and extra-curricular activities. Personality development programmes are also conducted on a regular basis to help students face interviews and project themselves confidently.

We believe that every student who steps out will be an achiever.

Shri. V. K. Sundaram
Founder Chairman

Shri. K. Vijay Kumar
Chairman

Shri. K. Ajay Kumar
Secretary

Principal's Message

Dear Friends,

Being an educationist is an enriching experience and it is wonderful to watch students you have nurtured blossom before your eyes. SEC lays the foundation for every student's entire career and the right mentoring and guidance are required at this vulnerable stage of life. We offer a supportive environment with individual attention and a nurturing attitude.

Engineering education at SEC is the perfect integration of knowledge, skills, understanding and experience which will stand every student in good stead. We offer modern and sophisticated technical infrastructure and good facilities. It's up to students to make the best of these. We endeavour to provide an inspiring environment and a campus experience that will encourage innovation and push the frontiers of research. We have built constructive and collaborative relationships with the industry and this gives students the right kind of industry exposure.

Every student at SEC is a winner and will step out a full-fledged professional with a bright future.

Dr. K. Srinivasan
Principal

Dr. R. Pradeep Kumar's Message

Dr. R. Pradeep Kumar,
CEO, Amphiventures

Power up Your Campus with Auto-Evaluation

For the last two decades, E-Box has been at the forefront of auto-evaluation and learning automation. Initially, the company viewed engineering education as the study of designing and analyzing systems, whether it be computer, machinery, electrical/electronic, or biological systems. It is vital in engineering education to verify if a student's system design meets the given requirements and to assess their comprehension of the concept.

Moreover, evaluating the student's ability to apply the acquired knowledge in creating novel systems, machines, and constructions is also necessary. However, every course includes specific exercises to be practiced by the students to gain the required knowledge and skills. Sadly, regulatory bodies such as AICTE/UGC or Universities/Colleges in India have not conducted extensive research on the science of learning engineering. They have merely worked on abstract curriculum or syllabus levels without delving into the delivery, transmission, or assimilation of each concept or course. They have focused on the term OBE, and NAAC/NBA have insisted on defining objectives for courses, assuming that such definitions or a few regulations over the blooms taxonomy model could accomplish it. Nonetheless, this approach has failed, and it's time for everyone to focus on the science of higher education.

In contrast, E-Box has been researching the science of higher education, tech-skilling, and engineering applications to build a comprehensive framework for intricate auto-evaluations. The intricate auto-evaluation enables continuous monitoring of students/trainees and provides personalized attention to every concept and topic they are learning. Human teachers cannot achieve this on a large scale. Even for a class of 60 students, it is impossible for human teachers to drive a practice-oriented approach, wherein students solve hundreds of engineering and technology problems, and subsequently evaluate them manually. But practice-oriented approach is essential for students to learn and develop the required skills. Only platforms with intricate auto-evaluations can provide this. E-Box provides intricate auto-evaluation and learning automation that can power up your campus. It's time for educational institutions to be more responsible and logical and not continue to provide sub-standard engineering education to our Indian youth. Let's understand the science of engineering education.

PATENTS

Name : Dr. K. Srinivasan, Principal.

**Patent Title : ML Based Solid Fertilizer
Dissolving Device**

Patent Type : Indian Design Patent

Indian design patent granted successfully

Dr. K. Srinivasan, Principal, has published the Indian design patent titled “**ML Based Solid Fertilizer Dissolving Device**” for a new fertilizer dispensing device. The device, which is still under development and designed to help farmers more accurately and efficiently apply fertilizer to their crops.

The design pattern includes a 3D model of the device, as well as a list of materials and instructions for how to build it. The device is relatively simple to make, and it can be used with a variety of fertilizers.

Highlights:

- **Welcome Address:** Prof. S. John Joseph, HOD-AI&DS, Placement Coordinator, welcomed the representatives of PR READYMIX and the participating students.
- **Preplacement Talk:** Mr Somasundaram, HR representative from PR READYMIX, delivered a preplacement talk. He provided insights into the company, its work culture, career opportunities, and the specific skills and qualities they were looking for in potential candidates.
- **Interaction with HR:** An interactive session followed the preplacement talk, where students had the opportunity to ask questions and clarify their doubts about the company and the selection process.
- **Selection Process:** The selection process likely involved multiple stages, including resume screening, technical tests and interviews.
- **Outcome:** Six students from the Department of Civil Engineering were successfully selected for employment with PR READYMIX.

Etericals Engineering Pvt. Ltd. conducted a campus recruitment drive on February 15, 2024. The event was presided over by the Principal, Dr. K Srinivasan. Prof. S. John Joseph delivered a welcome address, followed by a company introduction by Ms. Rojarani, HR representative. Mr. Thamaraiselvan, CEO, gave a preplacement talk to the students.

The first round of the recruitment process was completed, and all 8 EEE students who participated successfully cleared this round. This indicates a strong initial performance by the students and bodes well for their chances in the subsequent rounds.

SUDHARSAN CHRONICLES

We Revolutionize Engineering
& Technology Learning

Summary:

- Clazyworks Technologies conducted a campus recruitment drive at Sudharsan Engineering College on February 16, 2024.
- The CEO of the company personally conducted the interviews.
- Four students were selected from the final year departments of Artificial Intelligence and Data Science (AI&DS) and Computer Science Engineering (CSE).
- The selection process involved a skill test followed by three rounds of interviews.
- Dr. K. Srinivasan, the college principal, emphasized the importance of IT development skills and congratulated the selected students.

Details:

- 30 students from CSE, AI&DS, ECE and EEE departments participated in the initial stages.
- 12 students were shortlisted for the final interview round.
- Ultimately, 4 students were offered positions at Clazyworks Technologies:
 - Kathiravan (AI&DS)
 - Srikeerthi (AI&DS)
 - Lakshmi Priya (CSE)
 - Anitha (AI&DS)
- The event was organized by Prof. John Joseph, HOD/AI&DS and hosted by the college principal.
- College officials, including the chairman, secretary and principal, congratulated the selected students.

IRS Outreach Program: Geodata Processing using Python

Sudharsan Engineering College is proud to announce the achievement of Assistant Professor P. Siva, who recently completed the prestigious "**Geodata Processing using Python**" course conducted by the Indian Institute of Remote Sensing (IIRS), ISRO, from January 15th to 19th, 2024. As a nodal center for the IIRS Outreach Program, Sudharsan actively encourages faculty development, and Professor Siva's success exemplifies this commitment.

Delving into Geospatial Data with Python:

The intensive one-week course equipped Professor Siva with the latest techniques for processing geospatial data using Python. Participants explored:

- **Satellite image processing:** Techniques for analyzing, manipulating, and extracting information from satellite imagery.

Introduction

The Department of Electronics and Communication Engineering (ECE) at Sudharsan Engineering College organized a seminar titled "Research Building" on February 14, 2024. The seminar aimed to equip faculty members with valuable insights and practical strategies to enhance their research endeavors.

Welcome Address

Dr. K. Asan Mohideen, Head of the ECE Department, welcomed the participants and introduced the resource person, Dr. Naveen Balaji, a renowned professor from the University of Kwazulu-Natal, South Africa.

Seminar Presentation

Dr. Naveen Balaji delivered an informative and engaging presentation on various aspects of research building. He covered key points such as:

- **Reference paper selection:** Techniques for identifying relevant and high-quality research papers in specific fields.
- **Thrust areas:** Identifying promising areas of research within the domain of ECE.
- **Journal finder:** Utilizing online resources to select appropriate journals for publication based on research focus and target audience.
- **Writing abstracts and conclusions:** Crafting effective abstracts and conclusions that clearly communicate research objectives, findings, and significance.

Discussion and Interaction

The presentation was followed by an interactive session where participants actively engaged with Dr. Naveen Balaji, raising questions and seeking clarifications. This open

SUDHARSAN ENGINEERING COLLEGE

SATHIYAMANGALAM, PUDUKKOTTAI

SUDHARSAN CHRONICLES

discussion fostered a stimulating learning environment and allowed participants to gain further insights into the practical application of the presented concepts.

Participants and Attendance

The seminar was well-attended by faculty members of Sudharsan Engineering College, representing various departments including computer science, electrical engineering, mechanical engineering, civil engineering, electronics and communication engineering, and Artificial Intelligence and Data science. This interdisciplinary participation fostered cross-departmental exchange of ideas and potential research collaborations.

Vote of Thanks

Dr. P. Sujatha, Vice Principal of the college, delivered the vote of thanks, expressing gratitude to Dr.Naveen Balaji for sharing his expertise and to the ECE department for organizing the informative seminar.

Conclusion

The "Research Building" seminar proved to be a valuable learning experience for the participating faculty members. Dr.Naveen Balaji's insightful presentation and the interactive discussion session equipped them with practical knowledge and strategies to strengthen their research endeavors. The seminar's success can be attributed to the collaborative efforts of the ECE department, the resource person, and the active participation of the faculty members.
