Report on Inauguration of Students Club 2023

On 6th February 2023, the Students club of Sudharsan Engineering College was inaugurated in a grand ceremonial way. Clubs help the students to think outside the box and explore their hidden talents. Active participation in all kinds of club activities promotes the growth and makes them face real life challenges. Academic knowledge gives them critical thinking but non- academic knowledge gives attitude development, social, emotional, creative and metacognitive skills. Sudharsan Engineering College provides various clubs for all the students to help them to interact among themselves and with the society by learning from peers and experts. These clubs also could create a new career for many students, develop entrepreneurship and thirst to success in this competitive world.

The inauguration was scheduled at 1.30 pm in Sri Sri. Candrasekarendra Saraswathi Auditorium. Student coordinators, the office bearers and the members of all the clubs were asked to assemble inside the hall at the scheduled time.

The programme started with the praising of Mother Thamizh by singing Thamizh thai vazhthu followed by lighting of the lamp. Then there was a welcoming classical dance performance by Devadharshini, 1st year AI & DS student, Followed by the welcome address by Delphin Sophia, III- CSE.

Then the Overall Club coordinator Mrs. M.A. Madhu Mathi, delivered the inaugural address by introducing the various clubs and the importance of organising such club activities to the students. After that our Principal, Dr. K. Srinivasan felicitated the function and motivated the students by his incredible speech. He also briefed the forthcoming events and encouraged all the students to participate ardently.

All the club coordinators, faculties in charge, student chairman, vice chairman and the office bearers were introduced and the photo shoot was taken place club wise.

After this several Cultural performances were organised. Students of various departments joined team and performed Tamil elocution & poetry narration on the topic of “Tamil culture”, English speech & verses recitation on the topic of “Importance of English communication for Engineers” singing, dancing, and there was a fabulous drama by 1st year students on the theme of “Women Education”.

Last but not least the vote of thanks delivered by D. Muthumani – III EEE with thanking the parents, Mother tongue Tamil, our Principal Sir and the faculties made our day.

On the whole, the inauguration programme was a grand success and is one of the important events of this academic year. The students are then asked to actively participate in the further club activities.

The list of clubs inaugurated and the faculty coordinator are
