#### **EVENT REPORT:**

Sudharsan Engineering College organised Bharathanatyam dance competition, a classical form of Tamilnadu art and dance, for the great cultural festival, Sangamam' 23. The auditorium was kept live by the enthralling performances of every student artist from different schools. These breathtaking dances, which honor all the Hindu gods and Tamil culture, includes the Shivthandav and the Kannan song. The schoolchildren synced perfectly to the music, displaying elegance in their expressions (Bhavam), mudras, and Jathis. The audience gave this a very positive reception. The students used the stage properly to grab the attention of the audience craving all of the non- dancers to learn Classical Bharathanatyam. Many of our college students who are unaware of this dance was in awe. The judge Smt. Sankari was very much pleased by the fantastic performances by the young artists. The coordinators being classical dancers had a nostalgic memory of them performing in front of many legends and in their schools & colleges.

#### **About the Event**

First one should start with the basic seven swaras ——-”Sarigampathani “.One should catch the fundamental sounds in proper form,in what is called, sruthi .Then the music teacher will teach different combinations of the swaras, set to a fixed beat,in number of forms called “varisais”, in tamil.There are sarali varisais, jandai varisais and so on.This basic lesson will give rigorous training to grasp the tones of the swaras and also enable one to sing in unison.With different mathematic combinations and at various speeds, these will be taught and the students have to practice religiously to sing correctly without any mistake and also catch the beat properly.

Next level will be short songs, called “Geethams”. These set in different ragas will test the skill of the student to get the words and tunes and also associate with the swaras notations.These also will be presented in various speeds

Once the student gets well versed in this, they will be taught longer version songs called “varnams”,in number of ragas.These songs all will have lyrics,interspersed with the corresponding swaras notes and are configured in such a elaborate fashion,that once someone masters these, his recital will have wholesome effect.Again, “varnams”,have to be played in different speeds, starting from slow to high .By this time,the students would have been trained on tne raga structure and tala (beat)structure,properly. They will be in a position to identify the ragas and also follow the beat continuously.

With such intense coaching and continuous practice ,the students will by then, develop voice culture,raga,tala coordination and get the confidence to perform

After this ,the teachers will teach songs ,also called kirtans, in various ragas, of famous composers,and give training on the importance of stressing the swaras,while rendering

Further more kirtans will be taught and also lessons on elaborating a raga, called alapana, developing on the lyrics,called niraval , and swaraprasthara,will be given

The student by now will be trained well and will be advised to listen to concerts, recitals and performances, to enhance his knowledge and gain confidence to perform. The results were as follows:

1st Prize: Vairam Matriculation Higher Secondary School, Pudukkottai

2nd Prize: Rani's Higher Secondary School, Pudukkottai.

3rd Prize: Sri Venkateshwara Matriculation Higher Secondary School,
